# Best in Practice: PET-MRI

Recently introduced and FDA approved, the Siemens Biograph mMR is the first whole body system that enables simultaneous PET and MR imaging. This program will briefly discuss this novel technology, current and future applications of performing simultaneous acquisition, and summarize ongoing and planned clinical and research studies.

## Speakers:

**Michael Recht, MD**, Chairman Department of Radiology

**Fernando Boada, PhD**, Director of CAI<sup>2</sup>R and Co-Director CBI

**Christian Geppert, PhD**, Senior Collaboration Manager for MR R&D

**Hersh Chandarana, MD**, Assistant Professor of Radiology

**Kent Friedman, MD**, Assistant Professor of Radiology

**September 19, 2012**

**Skirball 3-Seminar Room**

**5:00 pm – 6:15 pm**

**NYU School of Medicine**

**550 First Avenue, New York City**

This lecture is hosted by Michael P. Recht, M.D. Chairman, Department of Radiology
